Peer Tutoring and Remedial Classes

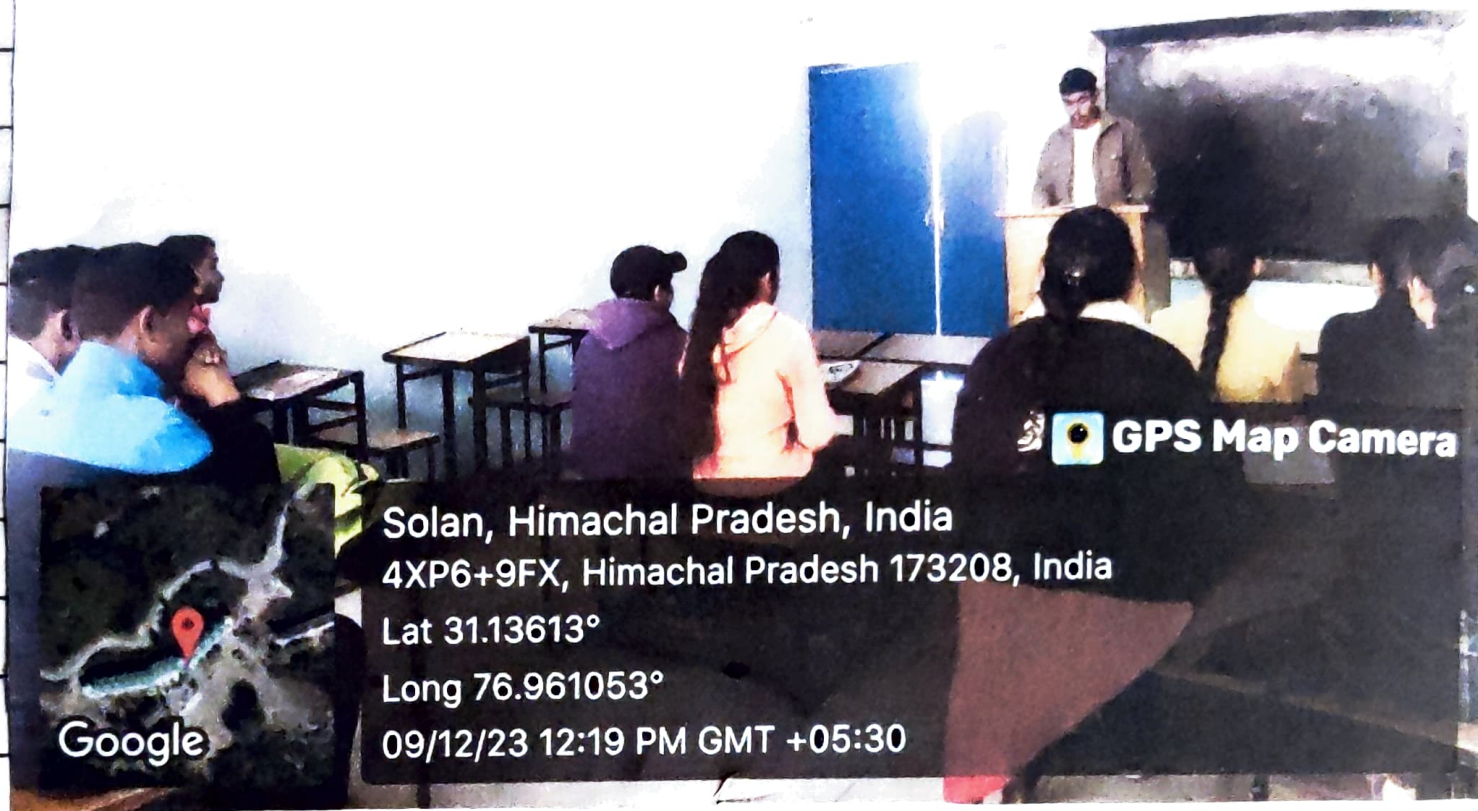

After completion of the syllabi of DSC 202 and DSC 203 of Second Year students, the peer tutor-tutee pairs were formed out of the academically stronger students and those of weaker students by Dr Veena Sharma, Assistant Professor in English. The aim was to create a cooperative learning environment where students can learn in small groups and learn how to work as a team. This remedial teaching strategy proved highly beneficial to both types of students as it promoted critical thinking and problem solving based learning. They were also taught how to make computer-aided presentations like that of power point. It augmented the comprehension of course content through more personalised learning. The academically weaker students at the end of such peer-tutoring sessions evolved as better performers and improved learners. They successfully gave their presentations on the topics assigned to them by Dr Veena Sharma and could score better in the tests given. This activity was periodically done as on 20/11 and 21/11/2023; 05/12 and 06/12/2023; 08/12 and 09/12/2023 respectively.
